A. PURUSHOTHAM NAIDU

Bengaluru, Karnataka | 6302585180 | apurushotham2006@gmail.com

CAREER OBJECTIVE

Motivated Computer Science and Engineering student specializing in Artificial Intelligence and Machine Learning, eager to apply programming, analytical and problem-solving skills to practical challenges while continuously learning and growing professionally.

EDUCATION

JAIN University, Bengaluru
B.Tech – Computer Science and Engineering (Artificial Intelligence & Machine Learning)

TECHNICAL SKILLS

Programming Languages: Java, Python, SQL
Core Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS
Databases: MySQL
Tools & Platforms: Git, GitHub, Google Colab, VS Code, Linux, Tableau
Areas of Interest: Machine Learning, Optimization, Fraud Detection Systems, Data Analysis

PROJECTS

Credit Card Fraud Detection System

- Suggested project: identify potentially fraudulent financial transactions using Python and machine learning.

Student Performance Analysis

- Suggested project: explore academic performance and identify patterns using Python and SQL.

Machine Learning Prediction System

- Suggested project: process data and generate predictions using Python and Google Colab.

SOFT SKILLS

Problem-Solving • Critical Thinking • Communication • Teamwork • Time Management • Adaptability • Quick Learning • Analytical Thinking

CERTIFICATIONS

Add the names of certifications you have successfully completed.

LANGUAGES

Telugu • English

Before submitting: replace suggested project examples with projects you have actually completed and add only certifications you have earned.
